Rajasthan Electricity Regulatory Commission, Jaipur

Petition No. RERC/2233/2024

In the matter of

Review Petition filed under Section 94(1)(f) of the Electricity Act, 2003 for Review read with Regulation of RERC (Transaction Of Business) Regulations, 2021 for review in the Order dated 01.05.2024.

Coram:

Dr. B.N. Sharma, Chairman

Shri Hemant Kumar Jain, Member

Dr. Rajesh Sharma, Member

Jodhpur Vidyut Vitran Nigam Limited. **Petitioner**

Date of hearing: **04.06.2024**

Present : Sh. Bipin Gupta, Advocate for Petitioner

Date of order **04.06.2024**

Order

1. The petitioner herein filed a petition no. 2226/2024 under section 63 read with Section 19 and 21 of RERC (Transaction of Business) Regulations, 2021 for the approval of levelized tariff discovered through transparent competent bidding carried out by the petitioner for solar power projects under component-C (feeder level solarization) of PM-KUSUM scheme vide TN-04 to TN-66.

2. According to the Petitioner the said petition was allowed by the Hon'ble Commission vide its order dated 01.05.2024. However, after the order it transpired that in respect to as many as 38 generators out of 1111, there were some errors which were either in the sub-station or the name of plants, the SPV capacity and errors in CFA and in respect to certain generators, error in final levelized tariff and the Petitioner also furnished the list of errors of 38 plants and details as Annexure-R1 along with the review petition, which is Annexed with this order also.

3. It is submitted by the Petitioner that the above error has been committed due to typographical errors while making a list of 1111 plants. According to the Petitioner, to avoid any unnecessary complications since the errors are due to typographical errors,

the present review application is filed for correction of the order in respect to the 38 (Thirty-Eight) power plants.

4. It is the submission of the Petitioner that the correction of these typographical errors will neither change the order in any manner on merits nor will have any impact and such typographical errors which are apparent on the face of the record and permissible to be corrected in the review jurisdiction of the court.

5. The Petitioner has prayed that the review petition filed by the petitioner may kindly be allowed and the order dated 1.05.2024 may be ordered to be reviewed and corrected for 38 power plants as mentioned in the Annexure R-1 of their review petition.

Commission's View:

6. We have considered the arguments of the Petitioner made through the petition as well as made during the hearing.

7. As pointed out by the Petitioner an inadvertent error has crept in due to typographical errors while making a list of 1111 plants. It is further requested by the Petitioner that the correction of these typographical errors will neither change the order in any manner on merits nor will have any impact and such typographical errors which are apparent on the face of the record and can be permitted to be corrected in the review jurisdiction of the court.

8. Considering the submission of the petitioner, we deem it appropriate to invoke our review jurisdiction. We accordingly accept the prayer of the Petitioner of reviewing the order dated 01.05.2024 passed by us in the matter of Petition No. 2226/2024 to the extent of 38 (Thirty-Eight) power plants in which case inadvertent errors have been pointed out by the Petitioner and list of which is also annexed with this Order. However, other terms and conditions of the order dated 01.05.2024 will remain unchanged and directions given by the Commission are to be complied with by the Discom.

9. Before parting with this Order, we would like to state that the Petitioner should remain vigilant in future while filing applications in similar matters as they have commercial implications.
