7 Energy Supply by the Solar Power Developer

7.1 CRITERIA FOR ENERGY SUPPLY

The SPG will declare the annual CUF of the Project at the time of submission of response to RfS, who shall be allowed, to revise the annual CUF once within first 12(twelve) months of the SCSD Thereafter, the declared annual CUF for the Unit shall remain unchanged for the entire term of the PPA. (Declared annual CUF) .The Declared Annul CUF by the SPG shall in no event, be less than 19%(nineteen percent). It shall be the responsibility of the SPG, entirely at its cost and expense to install such number of solar panel and associated equipment (including arrangement of extra land for such installation) as may be necessary to achieve the required CUF and for this purpose SPG shall make its own study and investigation of the GHI and other factors prevalent in the area which have implication on the quantum of generation.

In each Contract Year, the SPG shall supply energy to procurer at the Delivery Point so as to achieve annual CUF within +10% (ten percent) and –15% (fifteen percent) of the declared Annual CUF for the first 10 (ten) Contract years from the start of operations, and within +10% (ten percent) and –20% (twenty percent) of the declared Annual CUF for the remaining term of the PPA .

For the first year of operation of the project, the annual CUF shall be calculated based on the first year after SCSD of the Project. Subsequently, the annual CUF will be calculated every year from 1st April of the year to 31st March next year.

7.2 SHORTFALL IN GENERATION

If for any contract year it is found that the project supplies energy less than the energy corresponding to the value of annual CUF within the permissible lower limit of CUF declared by the SPG, on account of reasons primarily attributable to the SPG. The SPG will be liable to pay to the Procurer, penalty for the shortfall in availability of energy. The amount of such penalty will be equal to one and a half times the PPA tariff for the shortfall in energy terms.

7.3 EXCESS GENERATION

In case the availability of energy is more than the quantum corresponding to maximum CUF specified, Solar Power Developer (SPG) will be free to sell it to any other entity provided first right of refusal will vest with the Procurer(s). In case the Procurer purchases the excess generation, it will done at the PPA tariff .

7.4 For allowing optimization of operation of Solar Energy , the SPG will be allowed to supply power from the Solar power plant in excess of contracted capacity, to any third party or power exchange, without requiring any No objection Certificate (NOC) from the Procurer.

The Generator may also sell the power which was offered on day ahead basis to the Procurer (within Contracted Capacity) but not scheduled by the Procurer, to any third party or in power exchange without requiring NOC from the Procurer

8 Generation Compensation for off-take Constraints due to Transmission Infrastructure/ Grid Unavailability & Backdown

If on the account of unavailability of Transmission Infrastructure or any other eventuality, power is not scheduled by procurer, the penalty will be in accordance with the Electricity (Promotion of Generation of Electricity from Must–Run Power Plant) Rules,2021, as amended from time to time

8.1 Generation Compensation in off take constraints due to grid unavailability

During the operation of the plant, there can be some periods where the plant can generate power but due to temporary transmission unavailability the power is not evacuated, for reasons not attributable to the Solar Power Generator (SPG). In such cases the generation compensation shall be addressed by the Procurer in following manner:

Duration of Grid Unavailability	Provision for Generation Compensation
Grid unavailability beyond 175 hours in a year, as defined in the PPA	<p>Generation Compensation = ((Tariff X Solar power (MW) offered but not scheduled by Procurer)) X 1000 X No. of hours of grid unavailability.</p> <p>However, in case of third-party sale or sale in the power exchange, as price taker, the 95% of the amount realised, after deducting expenses, shall be adjusted against the Generation compensation payable, on monthly basis.</p>

8.2 Payment in case of reduced offtake .

The Solar Power Generator (SPG) and the Procurer shall follow the forecasting and scheduling process as per the regulations in this regard by the Appropriate Commission. “Must Run” Status will be provided to Solar Power Project. In case the plant is available to supply power but the off take of power is not done by the Procurer, including non-dispatch of power due to non-compliance with “Electricity (Late Payment Surcharge and Related Matters) Rules, 2022 notified by the Ministry of Power vide Gazette notification dated 3rd June 2022” and any clarifications or amendment thereto, considering the principle of ‘must run’ status to be provided for Solar Power, the procurer shall pay to the Generator, corresponding to the reduced off take, in terms of following manner:

Reduced Off-take	Provision for Generation Compensation
Reduced off-take beyond 175 hours in a year, as defined in the PPA	<p>Generation Compensation =</p> <p>(Tariff x Solar PV power (MW) offered but not scheduled by Procurer) X 1000 X No. of hours of Reduced Offtake</p> <p>However, in case of third-party sale or sale in the power exchange, as price taker, the 95% of the amount realised, after deducting expenses, shall be adjusted against the Generation compensation payable, on monthly basis.</p>

8.3 . For claiming compensation, the generator must sell its power in the power exchange as a price taker. The compensation would be limited to the difference of the actual generation up to declared capacity subject to a maximum up to the contracted capacity and the quantum of power scheduled by the procurer. {Actual generation upto declared capacity (subject to a maximum upto the contracted capacity - quantum of power scheduled by Procurer)}

9 CLEARANCES REQUIRED FROM THE STATE GOVERNMENT AND OTHER LOCAL BODIES

UPNEDA will support the SPG in obtaining clearances from the State Government and other departments/local body but the charges/fees will be borne by the SPG.

The SPG shall also comply with all the laws, regulations, orders and procedures issued by the appropriate authority, applicable for setting up and implementing the Project.

- (iv) In case of delay in achieving above condition as may be applicable, UPNEDA shall encash Performance Bank Guarantees, unless the delay is on account of delay in allotment of land by UPNEDA not owing to any action or inaction on the part of the SPG, or caused due to Force Majeure as per PPA. An extension can however be considered, on the sole request of SPG, This extension will not have an impact on the Scheduled Commencement Supply Date of the Project. Subsequent to the completion of deadline for achieving financial closure, UPNEDA shall issue notice to the SPG for not meeting the requirements of Financial Closure as per the RfS deadlines.  - (i). The contracted capacity shall stand reduced to the project capacity that has commenced supply of power within the period of SCSD plus 6 (six) months. The PPA for the balance contracted capacity that has not commenced supply of power shall stand terminated.
 - (d) It is presumed that, the tariff will be adopted by the Appropriate Commission within 60 days of submission of Application/Petition. However, any delay in adoption of tariff by the Appropriate Commission, beyond 60 (sixty) days, shall entail a corresponding extension in Scheduled Commencement –of Supply Date (SCSD).

15. **B EARLY COMMISSIONING**

The SPG shall be permitted for full commencement of supply of power corresponding to full contracted capacity even prior to the SCSD. The SPG shall give fifteen (15) days advance notice to procurer (UPPCL) regarding the advance commissioning of full capacity. C.3 For the purposes of meeting financial requirements, only latest unconsolidated audited annual accounts shall be used. However, audited consolidated annual accounts of the Bidder may be used for the purpose of financial requirements provided the Bidder has at least twenty six percent (26%) equity in each Company whose accounts are merged in the audited consolidated account.

C.4 A Company/ Consortium would be required to submit annual audited accounts as on the last date of previous Financial Year, i.e. FY 22-23, or as on the day at least 7 days prior to the bid submission deadline, along with net worth annual turnover and PBDIT certificate (as applicable) from a practicing Chartered Accountant/ Statutory Auditor to demonstrate fulfillment of the criteria. In case of foreign companies, the Bidders shall be required to submit the annual audited accounts for the last respective financial year as per the general norm in the country where the Bidder or its Affiliate(s) is/ are located.

Note: In case of foreign Bidders, in the event the Bidder is unable to furnish the audited annual accounts for the previous financial year as per the prevalent norm in the respective country, the Bidder shall submit the annual audited accounts of the last financial year for which the audited accounts are available. This, however, would be acceptable, subject to the condition that the last date of response to this RfS falls on or within the deadline for completion of audit of annual accounts of companies, as stipulated by the laws/rules of the respective country, and the Bidder shall submit the corresponding documentary evidence against the same. In case the annual accounts are submitted in a language other than English, a certified English translation from an approved translator shall be required to be submitted by the Bidder.

- C.5** For meeting the above financial eligibility criteria, if the data is provided by the Bidder in a foreign currency, equivalent Indian Rupees of Net Worth and other financial parameters will be calculated by the Bidder using Reserve Bank of India's reference rates prevailing on the date of closing of the accounts for the respective financial year.
- C.6** In case of any currency for which RBI reference rate is not available, Bidders shall convert such currency into USD as per the exchange rates certified by their banker prevailing on the relevant date and used for such conversion. After such conversion, Bidder shall follow the procedure/ submit document as elaborated in Clause C.4 above.
- C.7** In case the response to RfS is submitted by a Consortium, then the financial requirement (Net-Worth requirements, if applicable) to be met by each Member of the Consortium shall be computed in proportion to the equity commitment made by each of them in the Project Company.

For example, if two companies A and B form a Consortium with equity participation in 70:30 ratio and submit their bid for a capacity of 100MW, then, total Net-Worth to be met by the Consortium is Rs. 1.07 Crores x 100MW = Rs. 107 Crores. Minimum requirement of Net-Worth to be met by Lead Member A would be minimum Rs. 74.90 Crores and to be met by Consortium Member B would be Rs. 32.10 Crores. Similar methodology shall be followed for computation of turnover and other liquidity requirement.

SECTION - V

BID EVALUATION AND SELECTION OF PROJECTS

1 BID EVALUATION

Bid evaluation will be carried out considering the information furnished by Bidders as per provisions specified in Section-III, Instructions to Bidders (ITB) of this RfS. The detailed evaluation procedure and selection of bidders are described in subsequent clauses in this Section.

a TECHNO-COMMERCIAL EVALUATION OF BIDDERS

a.1 FIRST ENVELOPE (TECHNICAL BID) EVALUATION (STEP - 1)

The first envelope (Technical Bid submitted online) of only those bidders will be opened by UPNEDA whose required documents as mentioned at Clause No. 21.a, Section-III, Instructions to Bidders (ITB) of this RfS are received at the office of UPNEDA on or before the due date and time of bid submission.

a.2 Documents (as mentioned in the previous clause) received after the bid submission deadline specified in the Bid Information Sheet shall be rejected and returned unopened, if super-scribed properly with address, to the bidder.

a.3 Subject to Clause No. 20, Section-III, Instructions to Bidders (ITB) of this RfS, UPNEDA will examine all the documents submitted by the Bidders and ascertain meeting of eligibility conditions prescribed in the RfS. During the examination of the bids, UPNEDA may seek clarifications/ additional documents to the documents submitted etc. from the Bidders if required to satisfy themselves for meeting the eligibility conditions by the Bidders. Bidders shall be required to respond to any clarifications/ additional documents sought by UPNEDA within 05 (Five) days from the date of such intimation from UPNEDA. All correspondence in this regard shall be made through email/ ISN-ETS Portal only. It shall be the responsibility of the Bidder to ensure that the email id of the authorized signatory of the Bidder is functional. The Bidder may provide an additional email id of the authorized signatory in the covering letter. No reminders in this case shall be sent. It shall be the sole responsibility of the Bidders to remove all the discrepancies and furnish additional documents as requested. UPNEDA shall not be responsible for rejection of any bid on account of the above.

a.4 The response to RfS submitted by the Bidder shall be scrutinized to establish Techno-Commercial eligibility as per RfS.

b **SECOND ENVELOPE (FINANCIAL BID) EVALUATION (STEP - 2)**

In this step evaluations of Techno-Commercially Qualified Bids shall be done based on the “First Round Tariff Bid” quoted by the bidders in the Electronic Form of Financial Bid. After this step, the shortlisted bidders shall be invited for the Reverse Auction.

- b.1 Second Envelope (containing First Round Tariff) of only those bidders shall be opened whose technical bids are found to be qualified.
- b.2 The Bidder including its Parent, Affiliate or Ultimate Parent or any Group Company will have to submit a single bid (single application) quoting a single tariff per kWh for applied Project. The tariff has to be quoted up to two places of decimal only. If it is quoted with more than two digits after decimal, it shall be ignored after first two decimal places. (For e.g. if the quoted tariff is INR 2.337, then it shall be considered as INR 2.33).
- b.3 In this step, evaluation will be carried out for each bid based on tariff quoted by Bidders. Tariff has to be less than or equal to INR 2.98/ kWh for project. Those bids where tariff quoted for 5 MW project is more than INR 2.98/ kWh, shall be summarily rejected.
- b.4 On completion of Techno-commercial bid evaluation for each project, if it is found that only one bidder is eligible for that particular Project, opening of the financial bid of the bidder will be at the discretion of UPNEDA. Thereafter, UPNEDA will take appropriate action as deemed fit.
- b.6 If the first-round tariff quoted is same for two or more Bidders for project, then all the Bidders with same tariff shall be considered of equal rank/ standing in the order.
- b.7 All Bidders with same tariff shall be eligible for reverse auction round (provided their rank is equal to or less than nth Bidder as mentioned in Clause No. 3.2 of this Section-V.
- b.8 Ranking of bidders after Financial Bid Evaluation: Following illustrates an example of ranking of bidders after financial bid opening and evaluation

Bidder	Submitted Financial Bid	Ranking
B1	₹ 2.10 (Tariff in ₹/ kWh)	L1
B2	₹ 2.20 (Tariff in ₹/ kWh)	L2
B3	₹ 2.30 (Tariff in ₹/ kWh)	L3
B4	₹ 2.30 (Tariff in ₹/ kWh)	L3
B5	₹ 2.43 (Tariff in ₹/ kWh)	L4
B6	₹ 2.60 (Tariff in ₹/ kWh)	L5
B7	₹ 2.70 (Tariff in ₹/ kWh)	L6
B8	₹ 2.80 (Tariff in ₹/ kWh)	L7
B9	₹ 2.93 (Tariff in ₹/ kWh)	L8

2 **REVERSE AUCTION (STEP - 3)**

The reverse auction for each project shall be conducted through <https://www.bharat-electronictender.com> portal on the day as intimated by UPENDA to the eligible bidders.

2.1 The Total eligible bidders for the Project for reverse auction shall be decided as mentioned below:

Assuming

T = Total Techno-Commercially Qualified Bidders, and

Case	Condition	Formula	Total Eligible Bidders for e-RA
Case-I	$T \leq 2$	$n = T$	From 1st to 'n' th bidder in ascending order
Case-II	$T > 2$	i) $A = (T/2)$ if 'T' is even, and ii) $A = ((T+1)/2)$ if 'T' is odd $n = A$ or 2 whichever is higher	

2.2 At least one week prior to reverse auction, an advance intimation regarding the date and time of the reverse auction will be sent by e-mail to all the bidders whose technical bids have been opened and found to be qualified. However, from this advance intimation it shall not be construed by the bidders that they have been shortlisted for Reverse Auction. Further at least two hours before the schedule start time of Reverse Auction, a system generated email for invitation for Reverse Auction will be sent to all those bidders only who have been shortlisted based on the criteria mentioned at Clause No. 2.1 of this Section-V.

2.3 Shortlisted bidders for Reverse Auction will be able to login into the ISN-ETS Portal website of reverse auction 15 minutes before the start time of reverse auction.

2.3.1 During the 15 minutes prior to start of reverse auction process, the respective tariff of the bidder shall be displayed on its window.

2.3.2 The minimum decrement value for tariff shall be INR 0.01 per kWh. The Bidder can mention its revised discounted tariff which has to be at least 01 (One) Paisa less than its current tariff.

2.3.3 Bidders can only quote any value lower than their previous quoted tariff taking into consideration the minimum decrement value mentioned in the previous clause. However, at any stage, increase in tariff will not be permissible. Bidders can improve their ranking by quoting the tariff lower than their last quoted tariff.

2.3.4 In the bidder's bidding window, the following information can be viewed by the bidder:

- a) Its tariff as the initial start price and there after last quoted tariff along with the project capacity for which the Bidder is qualified.
- b) The list of all the Bidders with their following details: Pseudo Identity, last quoted tariff and project capacity

2.3.6 The initial auction period will be of 30 (thirty) minutes with a provision of auto extension by 08 (eight) minutes from the scheduled/ extended closing time. Such auto extension shall be

effected if by way of reduction in tariff, a Bidder causes a change in its zonal placement at that instant. The 'zones' are as follows:

- (a) Green Zone: This zone consists of the Bidders who may be allocated their full quoted Project capacity if the auction is closed at that instance.
- (b) Yellow Zone: This zone consists of the Bidders who may be allocated a part of their full quoted Project capacity if the auction is closed at that instance.
- (c) Red Zone: This zone consists of the Bidders who will not be awarded their quoted Project capacity if the auction is closed at that instance.

If no such change as described above is effected during the last 5 minutes of auction period or extended auction period, then the reverse auction process will automatically get closed.

3 SELECTION OF SUCCESSFUL BIDDERS

- 3.1 The lowest quoting bidder after reverse auction will be selected as successful bidder for 5 MW project.
- 3.2 In case of a tie among two or more bidders (i.e. their last quoted tariff being the same at the end of the e-RA), they will be considered in the chronological order of their last bid with preference to that bidder who has quoted his last bid earlier than others.

In the above case, if the time of quote also become exactly same among the bidders at a tie, then the ranking among these bidders shall be done as follows:

Step 1: Lowest rank will be given to the bidder who has quoted the lowest in Financial Bid (Electronic Form) and so on. If there is also a tie among any of these bidders, then the following step (Step 2) will be followed.

Step 2: Ranking will be done based on draw of lots.

- 3.3 **Issuance of LOA:** At the end of selection process, a Letter of Award (LoA) will be issued to the successful Bidder for the Project. In case of a Consortium being selected as the successful Bidder, the LoA shall be issued to the Lead Member of the Consortium.

In all cases, UPNEDA decision regarding selection of Bidder through Reverse Auction or otherwise based on tariff or annulment of tender process shall be final and binding on all participating bidders.

SPECIAL INSTRUCTIONS TO BIDDERS FOR e-TENDERING AND REVERSE AUCTION

GENERAL

The Special Instructions (for e-Tendering) supplement 'Instructions to Bidders', as given in these Rfs Documents. Submission of Online Bids is mandatory for this RfS.

e-Tendering is a new methodology for conducting Public Procurement in a transparent and secured manner. Now, the Government of India has made e-Tendering mandatory. Suppliers/ Vendors will be the biggest beneficiaries of this new system of procurement. For conducting electronic tendering, *Uttar Pradesh New & Renewable Energy Development Agency (uppcl)* has decided to use the portal <https://www.bharat-electronictender.com>. This portal is based on the world's most 'secure' and 'user friendly' software from ElectronicTender®. A portal built using ElectronicTender's software is also referred to as ElectronicTender System® (ETS).

Benefits to Suppliers are outlined on the Home-page of the portal.

INSTRUCTIONS

Tender Bidding Methodology:

Sealed Bid System

Single Stage Two Envelope

Auction

The sealed bid system would be followed by an 'e-ReverseAuction'

Broad Outline of Activities from Bidder's Perspective:

1. Procure a Digital Signing Certificate (DSC)-Class II and above.
2. Register on Electronic Tendering System® (ETS)
3. Create Marketing Authorities (MAs), Users and assign roles on ETS
4. View Notice Inviting Tender (NIT) on ETS
5. For this tender -- Assign Tender Search Code (TSC) to a MA
6. Download Official Copy of Tender Documents from ETS. Note: Official copy of Tender Documents is distinct from downloading 'Free Copy of Tender Documents'. To participate in a tender, it is mandatory to procure official copy of Tender Documents for that tender.

7. Clarification to Tender Documents on ETS
 - a) Query to UPNEDA (Optional)
 - b) View response to queries posted by UPNEDA
8. Bid-Submission on ETS
9. Respond to UPNEDA Post-TOE queries
10. Participate in reverse auction if invited

For participating in this tender online, the following instructions are to be read carefully. These instructions are supplemented with more detailed guidelines on the relevant screens of the ETS.

Digital Certificates

For integrity of data and authenticity/ non-repudiation of electronic records, and to be compliant with IT Act 2000, it is necessary for each user to have a Digital Certificate (DC), also referred to as Digital Signature Certificate (DSC), of Class II or above, issued by a Certifying Authority (CA) licensed by Controller of Certifying Authorities (CCA) [refer <http://www.cca.gov.in>].

Registration

To use the ElectronicTender® portal <https://www.bharat-electronictender.com>, vendors need to register on the portal. Registration of each organization is to be done by one of its senior persons who will be the main person coordinating for the e-tendering activities. In ETS terminology, this person will be referred to as the Super User (SU) of that organization. For further details, please visit the website/portal, and click on the 'Supplier Organization' link under 'Registration' (on the Home Page), and follow further instructions as given on the site. Pay Annual Registration Fee as applicable.

After successful submission of Registration details and payment of Annual Registration Fee, please contact ETS Helpdesk (as given below), to get your registration accepted/activated

Important Note:

1. Interested bidders have to download official copy of the RfS & other documents after login into the ETS Portal <https://www.bharat-electronictender.com>. If the official copy of the documents is not downloaded from ETS Portal within the specified period of downloading of RfS and other documents, bidder will not be able to participate in the tender.
2. To minimize teething problems during the use of ETS (including the Registration process), it is recommended that the user should peruse the instructions given under 'ETS User-Guidance Center' located on ETS Home Page, including instructions for timely registration on ETS. The instructions relating to 'Essential Computer Security Settings for Use of ETS' and 'Important Functionality Checks' should be especially taken into cognizance.

Please note that even after acceptance of your registration by the Service Provider, to respond to a tender you will also require time to complete activities related to your organization, such as creation of users, assigning roles to them, etc.

Some Bidding Related Information for this Tender (Sealed Bid)

The entire bid-submission would be online on ETS (unless specified for Offline Submissions). Broad outline of submissions are as follows:

- Submission of Bid-Parts
 - Envelope I (Technical-Bid)
 - Envelope II (Financial-Bid)
- *Submission of digitally signed copy of Tender Documents/ Addendum*

In addition to the above, the bidders are required to submit certain documents physically offline also as per Clause No. 24.a, Section-II, ITB of RfS Documents, failing which the technical bids will not be opened.

Note: The Bidder should also upload the scanned copies of all the above mentioned original documents as Bid-Annexures during Online Bid-Submission.

SPECIAL NOTE ON SECURITY AND TRANSPARENCY OF BIDS

Security related functionality has been rigorously implemented in ETS in a multidimensional manner. Starting with 'Acceptance of Registration by the Service Provider', provision for security has been made at various stages in ElectronicTender's software. Specifically, for Bid Submission, some security related aspects are outlined below:

As part of the ElectronicEncrypter™ functionality, the contents of both the 'ElectronicForms' and the 'Main-Bid' are securely encrypted using a Pass-Phrase created by the Bidder himself. Unlike a 'password', a Pass-Phrase can be a multi-word sentence with spaces between words (e.g. I love this World). A Pass-Phrase is easier to remember, and more difficult to break. It is mandatory that a separate Pass-Phrase be created for each Bid-Part. This method of bid-encryption does not have the security and data-integrity related vulnerabilities which are inherent in e-tendering systems which use Public-Key of the specified officer of a Buyer organization for bid-encryption. Bid-encryption in ETS is such that the Bids cannot be decrypted before the Public Online Tender Opening Event (TOE), even if there is connivance between the concerned tender-opening officers of the Buyer organization and the personnel of e-tendering service provider.

CAUTION: All bidders must fill ElectronicForms™ for each bid-part sincerely and carefully, and avoid any discrepancy between information given in the ElectronicForms™ and the corresponding Main-Bid. For

transparency, the information submitted by a bidder in the ElectronicForms[®] is made available to other bidders during the Online Public TOE. If it is found during the Online Public TOE that a bidder has not filled in the complete information in the ElectronicForms[™], the TOE officer may make available for downloading the corresponding Main-Bid of that bidder at the risk of the bidder. **If variation is noted between the information contained in the ElectronicForms[™] and the 'Main-Bid', the contents of the ElectronicForms[™] shall prevail.**

In case of any discrepancy between the values mentioned in figures and in words, the value mentioned in words will prevail.

The bidder shall make sure that the Pass-Phrase to decrypt the relevant Bid-Part is submitted into the 'Time Locked Electronic Key Box (EKB)' after the deadline of Bid Submission, and before the commencement of the Online TOE of Technical Bid. The process of submission of this Pass-Phrase in the 'Time Locked Electronic Key Box' is done in a secure manner by first encrypting this Pass-Phrase with the designated keys provided by the UPNEDA.

Additionally, the bidder shall make sure that the Pass-Phrase to decrypt the relevant Bid-Part is submitted to UPNEDA in a sealed envelope before the start date and time of the Tender Opening Event (TOE).

There is an additional protection with SSL Encryption during transit from the client-end computer of a Supplier organization to the e-Tendering Server/ Portal.

OTHER INSTRUCTIONS

For further instructions, the vendor should visit the home-page of the portal <https://www.bharat-electronictender.com>, and go to the **User-Guidance Center**

The help information provided through 'ETS User-Guidance Center' is available in three categories – Users intending to Register/ First-Time Users, Logged-in users of Buyer organizations, and Logged-in users of Supplier organizations. Various links (including links for User Manuals) are provided under each of the three categories.

Important Note: It is strongly recommended that all authorized users of Supplier organizations should thoroughly peruse the information provided under the relevant links, and take appropriate action. This will prevent hiccups, and minimize teething problems during the use of ETS.

SEVEN CRITICAL DO'S AND DON'TS FOR BIDDERS

Specifically, for Supplier organizations, the following '**SEVEN KEY INSTRUCTIONS for BIDDERS**' must be assiduously adhered to:

1. Obtain individual Digital Signing Certificate (DSC or DC) of Class II or above well in advance of your tender submission deadline on ETS.

2. Register your organization on ETS well in advance of the important deadlines for your first tender on ETS viz 'Date and Time of Closure of Procurement of Tender Documents' and 'Last Date and Time of Receipt of Bids'. Please note that even after acceptance of your registration by the Service Provider, to respond to a tender you will also require time to complete activities related to your organization, such as creation of -- Marketing Authority (MA) [ie a department within the Supplier/ Bidder Organization responsible for responding to tenders], users for one or more such MAs, assigning roles to them, etc. It is mandatory to create at least one MA. This unique feature of creating an MA enhances security and accountability within the Supplier/ Bidder Organization.
3. Get your organization's concerned executives trained on ETS well in advance of your first tender submission deadline on ETS
4. For responding to any particular tender, the tender (ie its Tender Search Code or TSC) has to be assigned to an MA. Further, an 'Official Copy of Tender Documents' should be procured/ downloaded before the expiry of Date and Time of Closure of Procurement of Tender Documents. Note: Official copy of Tender Documents is distinct from downloading 'Free Copy of Tender Documents'. Official copy of Tender Documents is the equivalent of procuring physical copy of Tender Documents with official receipt in the paper-based manual tendering system.
5. Submit your bids well in advance of tender submission deadline on ETS (There could be last minute problems due to internet timeout, breakdown, et al)
6. It is the responsibility of each bidder to remember and securely store the Pass-Phrase for each Bid-Part submitted by that bidder. In the event of a bidder forgetting the Pass-Phrase before the expiry of deadline for Bid-Submission, facility is provided to the bidder to 'Annul Previous Submission' from the Bid-Submission Overview page and start afresh with new Pass-Phrase(s)
7. ETS will make your bid available for opening during the Online Public Tender Opening Event (TOE) 'ONLY IF' your 'Status pertaining Overall Bid-Submission' is 'Complete'. For your record, you can generate and save a copy of 'Final Submission Receipt'. This receipt can be generated from 'Bid-Submission Overview Page' only if the 'Status pertaining overall Bid-Submission' is 'Complete'.

NOTE:

While the first three instructions mentioned above are especially relevant to first-time users of ETS, the fourth, fifth, sixth and seventh instructions are relevant at all times.

ADDITIONAL DO'S AND DON'TS FOR BIDDERS PARTICIPATING IN e-REVERSE AUCTION

1. Get your organization's concerned executives trained for e-ReverseAuction related processes on ETS well in advance of the start of e-ReverseAuction.

2. For responding to any particular e-ReverseAuction, the e-ReverseAuction (ie its Reverse Auction Search Code or RASC) has to be assigned to an MA.
3. It is important for each bidder to thoroughly read the 'rules and related criterion' for the e-ReverseAuction as defined by the Buyer organization.
4. It is important to digitally-sign your 'Final bid' after the end of e-ReverseAuction bidding event.

Minimum Requirements at Bidder's End

- Computer System with good configuration (Min PIV, 1 GB RAM, Windows 7 and above)
- Broadband connectivity
- Microsoft Internet Explorer 7.0 or above
- Digital Certificate(s)

It shall be the responsibility of the SPG, entirely at its cost and expense to install such number of solar panel and associated equipment (including arrangement of extra land for such installation) as may be necessary to achieve the required CUF and for this purpose SPG shall make its own study and investigation of the GHI and other factors prevalent in the area which have implication on the quantum of generation.

In each contract year, the SPG shall supply energy to the Procurer at the Delivery point so as to achieve annual CUF within +10% (ten percent) and -15%(fifteen percent) of the Declared Annual CUF for the first 10 (ten) Contract Years from the start of operations, and within +10% (ten percent) and -20%(twenty percent) of the Declared Annual CUF for the remaining term of this agreement .

The annual CUF will be calculated every year form 1st April of the year to 31st march next year. If for any contract year it is found that the SPG has not been able to generate minimum energy corresponding to the value of annual CUF within the permissible lower limit of CUF declared by the SPG, on account of reasons primarily attributable to the SPG, for such shortfall in availability of energy the SPG will be liable to pay to the Procurer, penalty equal to one and a half times the PPA tariff for the shortfall in energy terms.
